ACCELERATION	3.3	s 0-62mph (0-100 km/h)
ENGINE	4.0	litre V8 Twin Turbo
TORQUE	900	Nm from 2,750 - 4,500 rpm

# DBX707

## Exterior

DBX celebrates Aston Martin's design language in a new form. With a unique body architecture just for DBX, the design and proportions are elegant, purposeful and uncompromised. The Aston Martin grille, first seen on a DB2 prototype in 1949, provides a distinctive and evocative face for DBX whilst the dramatic shape of the doors and distinctive duck tail with its sleek, signature LED light blade provide an astonishing profile.

This configurator is not an offer to sell and is merely an indication of the types of Aston Martin vehicles, options or accessories which may be available from time to time and which may be ordered or purchased from an authorised Aston Martin dealer. Any purchase is subject to the terms and conditions of sale (including price) issued by the particular dealer. Any vehicles illustrated may include additional options at the time of any sale that are not featured here. Each vehicle or option described in this document is subject to availability. Features and specifications may vary according to each market. All information in this document is subject to change by Aston Martin without notice. Aston Martin makes no warranties, representations, or guarantees of any kind, express or implied, in relation to the vehicles and options presented including but not limited to, the accuracy, currency, or completeness of the information given in the Aston Martin vehicle configurator.

Official government fuel consumption figures in litres/100km (mpg) for the Aston Martin DBX707: WLTP Low 22.0 (12.8); WLTP Medium 13.9 (20.2); WLTP High 12.0 (23.4); WLTP Extra High 13.3 (21.2); WLTP Combined 14.2 (19.9). WLTP CO2 Emissions 323 g/km (NEDC Combined CO2 - for information only 309 g/km). Urban RDE trip NOx 85.8 mg/km, PN 9e11; Complete RDE trip NOx 85.8 mg/km, PN 9e11. PEMS ID: 09-SCF-0025-0; TA Number: E9\*715/2007\*2018/1832AP\*31279\*00.

Further information on the official fuel consumption and the official specific CO2 emissions of new passenger cars can be found in the "Guide to fuel consumption, CO2 emissions and power consumption of new passenger cars", which is available at all sales outlets and at DAT Deutsche Automobil Treuhand GmbH, Hellmuth- Hirth-Str. 1, D-73760 Ostfildern or at [www.dat.de](http://www.dat.de) free of charge.

The specified consumption and emission values were determined in accordance with the legally prescribed harmonized test procedure for passenger cars and light commercial vehicles ("Worldwide Harmonized Light Vehicles Test Procedure", WLTP), a more realistic test method for measuring fuel consumption and CO2 emissions than the previous New European Driving Cycle ("NEDC") method. The fuel consumption you achieve under real life driving conditions and the CO2 produced will depend upon a number of factors including the accessories fitted after registration, driving style, climate conditions and vehicle load.
